Professional Readiness for Innovation, Employability and Entrepreneurship

Project Report for week 1

Project Title: Efficient water quality analysis and prediction using machine learning

Mentor Name: Mrs. D. Sridevi

Team Members:

• Vishnu priyan A. (Team Leader)

• Siva kumar V.

• Thanseer ahamed L.

• Vishal D.

Week 1:(22-27th August 2022)

In week 1 we onboarded the course and attended the orientation sessions regularly and came to know more about this course.

We decided on the project use case. On 22nd August 2022 we got approval from the college SPOC and able to access the resources in the dashboard.

We all got the access to the guided project workspace and joined the mentoring channel. We referred all the guided project template and pre-requisites mentioned on 24th August.

In the project workspace, all the members of the team collaborated our Github with the IBM-Project repository through our respective Github usernames.

On the 27th August, we received the mail regarding the pre-requisite that are needed and installed it according to the instructions.
